

Fraaiheid[®] introduces MUUS[®]

A lover of walls

Fed up with ugly holes in your walls when you take down a picture? 'Wall jewelry' is the solution. A new concept MUUS fills the spot and gracefully adorns and restores the scarred surface.

The first series of MUUS *Balance*, *Swing* and *Jump* on your wall. *Balance* is a figure that balances upside down on top of a chair. *Swing* features a lady on a swing and *Jump* depicts a man jumping into the abyss.

Copper

Balance, *Swing* and *Jump* are figurines made from copper and will age naturally, depending on where they are hung. Each MUUS comes in a jewelry box together with a copper screw, a plug and a spacer.

An Ode to the wall

MUUS is an ode to the wall. The wall shapes our living environment. It bravely carries the roof above our heads. But it also quietly creates the blank canvas on which we project our personalities. We transform and color it. We decorate it with paintings and trophies. Without any complaint the wall collects all kinds of traces of our daily use over time. In return: the wall deserves a small sign of gratitude. The wall deserves a MUUS.

Where to buy?

MUUS is for sale online via the *Fraaiheid* website, www.fraaiheid.com and at stockists. Information about stockists can also be found on our website.
